

# Classroom talk: Reflection

These are the aspects of classroom talk that we have considered during this session:

- 1 Teacher talk
- 2 Learning and using the key sounds
- 3 Asking questions
- 4 Routines and incidental language
- 5 Pair and group talk

Consider each one and write down one thing you remember from each aspect that will inform your planning and teaching. Try to record something specific that you will do next week with a particular class.

## Action planning

Teacher talk

Learning and using the key sounds

Asking questions

Routines and incidental talk

Pair and group talk
