

Action planning – renewed Framework

Read through Handout 5 – Year 9 Objectives. Write down between 3-5 learning objectives that you think could help to improve teaching and learning in your department.

Put them in order of priority (1 = most urgent – 5 = least urgent)

Read the exemplification for that learning objective and note down any ideas that develop as a result.

Adapt (perhaps in collaboration with members of your department) an existing task, lesson or sequence of lessons to focus on the skills implied in the chosen learning objective.
